

1st SINGLE PORT WORKING GROUP MEETING

SINGLE PORT

EXTRAPERITONEAL OR TRANSPERITONEAL APPROACH?

Chair: Franco Gaboardi

FEBRUARY 20th - 21st, 2025

Congress Centre Fondazione Cariplo
Via Romagnosi, 8 - Milan

Dear Colleagues,

we are excited to invite you to the First Italian Congress of the Single Port Working Group, which will be held on February 20th and 21st, 2025 at the Fondazione Cariplo in Milan.

The congress will focus on an in-depth analysis of the first six months of using the SP robotic system in Italy, with particular attention to the extraperitoneal and transperitoneal approaches.

We will examine the pros and cons of each method through expert discussions, case presentations, and interactive sessions.

In addition to the talks and roundtables, we are pleased to announce that the event will feature live surgery sessions, showcasing procedures performed by Italian centers where the SP system is already installed.

These live surgeries will provide attendees with a unique opportunity to observe cutting-edge techniques in real-time, and to better understand the practical applications of the system.

We believe this congress will offer valuable insights and foster collaboration among professionals working in this innovative field.

Further information regarding registration and the full program will follow shortly.

We look forward to your participation in this landmark event.

Best regards,

Franco Gaboardi
